The building of this boat has been under consideration for several years, but no active steps were taken in the metter until nearly one year ago when scheme for bringing it into tangi-te shape was laid before the board of unde by Capt. John M. Mitchell, a tical lake sailor. It was through his efforts that the Craig Ship Building company of Toledo became interested in the proposed enterprise and began to investigate the chances for its success. When it became evident that the Craig Ship Building company considered it to be a feasible undertaking and backed up its enthusiasm with a promise to be-come owner of a majority of the stock required, the board of trade went to work and matured the scheme.

From 1876 to 1876 he had charge of the steamer Huron and following this was captain of the Baginaw, with headquarters at Toledo. Hulda Crispin Seeks a Divorce.

Hulda J. Crispin has filed a bill of complaint with the clerk of the circuit court against her husband, Walter Crispin. She wishes a divorce. She says she married him July 25, 1889, and they lived together peaceably until January last, when he began to run to dences with other women and leave home for weeks at a time. On June 3 last he attended a dance at Casnovia, within one-half mile of the home of the complainant, with a woman unknown to her and remained out all night. The complainant was sick at the time and needed his services. Before and subsequent to that date he had taken various females to dances and acted in a Hulda Crispin Seeks a Divorce.

Great Sale of Spring and Summer Suits Regardless of Cost.

Notwithstanding the backward rainy season the business done by this enterprising house is phenomenal. Having closed out a very large stock of spring suitings we were compelled to again hustle to the markets of the east for a new supply, and as everyone knows, a sharp, shrewd buyer who visits the sastern markets now at this time of a very backward year, can buy large stocks of goods at their own price. Such was the experience of Mr. Bium-enfeld on his last trip, having bought a very large stock at spot cash and prices that were below the cost to man ufacturer.
